

MEASURE AND IDENTIFY  
YOUR RISK EXPOSURE WITH  
UDT'S SECURITY AND  
ADVISORY SERVICES

## IDENTIFY SECURITY WEAKNESSES AND CORRELATE RISK EXPOSURE TO DOLLAR-VALUE LEVELS

As cyber-attacks proliferate and their threats magnify, uncovering vulnerabilities and taking stock of your security measures is mission critical to safeguarding what matters to you most.

Staying ahead of cyber threats can be overwhelming – requiring evaluations and audits of your systems, processes, programs and applications – often leaving businesses unsure where to begin.

UDT's proven suite of comprehensive security assessments identifies vulnerabilities and provides tactical remediation strategies that prioritize fixes, maximize resource allocation, and reduce your overall risk exposure.

# UDTSecure™

CYBERSECURITY ADVISORY SERVICES

UDTSecure's Professional Cybersecurity Services helps organizations navigate the security and threat landscape.

Featured Offerings Include:

## Risk and Vulnerability Assessments

Understand your exposure levels and identify weaknesses with your current security programs.

## Compliance Audits

Uncover gaps in your current security ecosystem and maintain compliance with industry and regulatory requirements.

## Incident Response

Assist in planning for, responding to, and recovering from cyber incidents, with the potential to seriously disrupt operations, and damage reputations.

## Cybersecurity Liability Coverage Review

Determine the right policy and coverage limit requirements that cover business losses and interruptions caused by a data breach.

## Technical Evaluations

Test and measure the effectiveness of security controls protecting your networks, applications and people.

## Training and Awareness

Deliver highly customized training content to help employees spot and manage potential threats while maintaining compliance.

## Forensic Analysis

Ascertain forensic insights into your data and, if needed, receive litigation support.

## Implementation Strategies

Define cost-effective remediation strategies that reduce risk exposure, improve security posture, and maintain compliance.

Together. Forward. Further. Faster.
