CHIEF INFORMATION SECURITY OFFICER AS A SERVICE (CISOaaS)

ENHANCE YOUR SECURITY POSTURE WITHOUT SPENDING A FORTUNE

Finding and hiring a full-time Chief Information Security Officer (CISO) with the necessary experience can be challenging for organizations of all sizes. The right resource is critical to an organization's security resilience and ensuring the organization maintains regulatory compliance.

UDT's CISO as a Service is a highly respected, flexible and cost-effective alternative to a full-time CISO. Your organization will leverage a multifaceted security team that can identify and mitigate vulnerabilities, establish security best practices, and recommend the right strategy to protect what keeps your business going.

UDT's outsourced CISOs have decades of real-world security experience and are available on-site or remotely depending on your requirements. Working closely with our security teams, UDT CISOs help clients define comprehensive strategies, develop clear roadmaps and implement strong security programs aligned to business strategy and risk management objectives.
