AS YOUR BUSINESS GROWS AND OBJECTIVES CHANGE, SO DO YOUR TECHNOLOGY NEEDS. WHETHER IT IS BRINGING NEW PRODUCTS AND SERVICES TO MARKET FASTER, STREAMLINING COMMUNICATIONS, EMPOWERING TELEWORKER CAPABILITIES OR REDUCING COSTS, OUTDATED AND UNDERPERFORMING TECHNOLOGY CAN HINDER YOUR GROWTH GOALS AND INNOVATION PLANS.

BENEFITS OF ADVANCED PROFESSIONAL SERVICES

- Drives your digital transformation
- Customizes strategies to maximize your goals
- Uncovers cost-savings
- Mitigates risks
- Spans the technology life-cycle

SERVICES

ADVISORY AND CONSULTING

As technology strategists, we design and architect the solutions that best meet your present and future business, technology, people and security needs.

INTEGRATION

Our expert integration teams, led by certified engineers, identify creative ways to tie new infrastructure into existing workflow and applications, maximizing your efficiency.

IMPLEMENTATION

Using industry best practices, you can be confident in our ability to deliver the installation, configuration, integration, testing and training components of your purchased technology.

STAFF AUGMENTATION

From network engineers, to database administrators and project managers, UDT has expert professionals to help you manage your systems, supplementing your staff on an as-needed or project basis.

PROJECT MANAGEMENT

Our capabilities run the full gamut, from providing on-demand and remote project management for lighter touch projects, to onsite, full-time project management for complete lifecycle management. We provide complete skill sets and our professionals leverage years of experience and knowhow. UDT institutes a fully proven project management framework of its own, the "i3e Project Management Framework", and leverages a robust project management software, LiquidPlanner.
